moneynetint

What are cookies and how do they work?

Cookies are small information files downloaded to your device (computer or mobile phone) from the websites you visit. Cookies pose no threat to devices. When you are visiting a website your internet browser reads the cookie and provides information, for example, recognizes you as a visitor and adjusts the contents of the website to suit your needs.

What cookie does MoneyNetint use?

Cookie	Name	Purpose	Expiration Time	More information
PHPSESSID	PHP	This cookie enables us to identify you on our website when you browse through different pages. It is native to PHP and enables websites to store serialized state data. On the Action website it is used to establish a user session and to pass state data via a temporary cookie, which is commonly referred to as a session cookie.	End of your Session	From more information please contact us at: support@moneynetint.com

Cookies for third parties

When you visit a page on our site with content embedded from third parties, for example, Google Analytics, HubSpot or Bizo, cookies may be downloaded onto your device. We do not set or control these cookies and they can change anytime without Moneynetint knowledge. If you are concerned about the types of cookies that may be downloaded you can check the third party websites for more information about these cookies.

Below are the known cookie names for third party services.
